

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

# SEVENTH BIENNIAL REPORT

## OF THE

### RAILROAD COMMISSIONER.

---

STATE OF WISCONSIN.

*Office of Railroad Commissioner.*

MADISON, WISCONSIN, December, 1896.

HON. W. H. UPHAM,

*Governor of Wisconsin:*

In compliance with law, the Railroad Commissioner herewith submits his biennial report for the years ending June 30, 1895, and June 30, 1896, being the seventh biennial report of this department. Following the custom of his predecessors for many years, the report has been tabulated from the returns made by the railroad companies. These returns are uniform in most of the states of the union where there are railroad commissioners, and are patterned after the reports required by the inter-state commerce commission. Attempts to make compilations from them or to condense the matter contained lead to confusion and cause dissatisfaction to the people who have most frequent occasion to use them for reference. The additional expense of publishing the complete reports would not be large, and if any returns are warranted by the public demand for them, it would seem the part of wisdom to have them complete. The repeated recommendation from this office for such amendment of the law as is necessary to accomplish this result is, therefore, respectfully renewed.

---

*General Report.*

---

**MILEAGE.**

The panic period in the business of the state has naturally restricted the extension of railway enterprises. On June 30, 1894, the total mileage of roads within the state reported to the railroad commissioner was 6,003.68. On June 30, 1896, the total mileage reported was 6,279.46, being an increase of 275.78 miles, of which 179.98 is returned by Wisconsin Central Lines.

New companies reported during the last biennial period are the Big Falls Railway Co., with 15 miles, and the Mattoon Railway Co., with 9.51 miles.

Since the last report of this office the Goodyear, Neillsville & Northern Railway Co. has taken up its tracks and the corporation has been dissolved.

On February 11, 1896, the Port Edwards, Centralia & Northern Railway was sold under foreclosure of bondholders and the company has gone out of existence. The Marshfield & South-eastern Railway Co. was organized February 20, 1896, and purchased the property and has been operating the same since that time.

During the latter part of this year, the Chicago, Fairchild & Eau Claire River Railroad Co. changed its corporate name to the Fairchild & Northeastern Railway Co.

The Wisconsin Central Lines, the Minnesota & Wisconsin Railroad and the Kickapoo Valley & Northern Railway are still operated by receivers, as they have been since 1893. The Milwaukee & Wauwatosa line has passed into a receiver's hands, and a plan is now being carried out looking to its operation as an electric line.

The following data is taken from the reports of the several roads and pertains to mileage in Wisconsin on June 30th, 1896.

Capital Stock.....	\$106,157,479 40
Funded debt.....	153,445,697 89
Unfunded debt.....	3,300,006 22
Total.....	<u>\$262,903,183 51</u>

---

*General Report.*

---

Dividends declared on stock .....	\$2,666,151 60
Total cost of construction.....	\$191,303,303 83

## EARNINGS.

Passenger.....	\$8,540,456 51
Freight .....	24,477,899 79
Other .....	557,614 67
Total .....	\$33,575,970 97

## EXPENSES.

For maintenance of ways and structures.....	\$4,617,347 35
For equipment .....	3,383,445 78
For transportation .....	10,316,240 08
For general expenditures .....	1,673,576 78
Total .....	\$19,990,609 99
Earnings by operation.....	\$33,575,970 97
Less expense of operation.....	19,990,609 99
Income from operation .....	\$13,585,360 98
From this amount is deducted various items of other ex- penses leaving the net income as reported at.....	\$6,104,241 89
If from this we deduct the deficit as reported.....	619,826 18
We have as the net income of Wisconsin mileage.....	\$5,484,415 71

## STATE INCOME FROM RAILWAY COMPANIES.

The business depression general throughout the country has seriously reduced the gross earnings of railway companies, and has caused a large falling off in the amounts received by the state as license fees or taxes. The amounts received from this source during the last five years are as follows :

1892 .....	\$1,220,674 88
1893 .....	1,373,950 47
1894 .....	1,295,999 13
1895 .....	1,174,970 93
1896 .....	1,231,488 78

*General Report.*

As the amounts paid for taxes given in reports from which the tables in this book are compiled are based upon inter-state rates figured proportionally upon a mileage basis, they are not accurate as showing the tax paid by such companies to the state of Wisconsin. I, therefore, give herewith the amount of license fee or tax paid by each company doing business within the state for the years 1895 and 1896.

	Oct. 1, 1894, to Sept. 30, 1895.	Oct. 1, 1895, to Sept. 30, 1896.

This fee or tax is based upon the earnings of each company for the preceding calendar year ending December 31.

---

*General Report.*

---

For the information of the public, the laws governing the taxation of the railroads and sleeping car companies are here inserted.

SECTION 1211. Every railroad company, and every person operating a railroad in this state, except railroads operated by horse-power, shall, on or before the tenth day of February in each year, make and return to the state treasurer, in such form and upon such blanks as shall be furnished by him, a true statement of the gross earnings of their respective roads for the preceding calendar year, of the number of miles of road operated by each such company or person, and the gross earnings per mile per annum during such year, which statement shall be verified by the oath of the secretary and treasurer of such companies, or of the person so operating such railroad.

9 Wis., 431; 11 Wis., 36; 15 Wis., 554; 16 Wis., 1.

SECTION 1212. Each such railroad company and each person so operating any railroad shall, on returning such statement, apply for a license to operate the railroad mentioned in such statement, and shall pay the license fee therefor provided in the next section; and thereupon shall receive from the state treasurer a license to operate such railroad for the calendar year commencing on the first day of January preceding, and terminating on the next succeeding thirty-first day of December, unless sooner revoked.

SECTION 1213. The annual license fees for the operation of such railroads shall be as follows:

1. Four per centum of the gross earnings of all railroads, except those operated on pile and pontoon, or pontoon bridges, whose gross earnings equal or exceed three thousand dollars per mile per annum of operated railroad.

2. Five dollars per mile of operated railroad of all railroads whose gross earnings exceed one thousand five hundred dollars per mile per annum, and are less than three thousand dollars per mile per annum of operated road, and in addition two per centum of their gross earnings in excess of fifteen hundred dollars per mile per annum.

3. Five dollars per mile of operated road by all companies whose gross earnings are less than fifteen hundred dollars per mile per annum.

4. Two per centum of the gross earnings of all railroads which are operated upon pile or pontoon, or pontoon bridges, which gross earnings shall be returned as to such parts thereof as are within the state.

One-half of such license fee shall be paid at the time the license so issued, and one-half on or before the tenth day of August in each year.

FORFEITURE FOR NEGLECT TO OBTAIN LICENSE AND PAY FEE.

SECTION 1214. If any such railroad company, or person operating any such railroad in this state, shall neglect to obtain such license, or pay the license fee therefor, or any part thereof, as hereinbefore provided, such company or person shall absolutely forfeit to the state the sum of ten thousand dollars, to be recovered in an action brought in the name of the state; and such neglect shall also be a cause of forfeiture of all the rights, privileges and franchises, whether granted by special charter or obtained under general laws by or under which any such railroad is operated. And the attorney-general, upon such neglect, shall collect by action the pecuniary forfeiture herein imposed, and also proceed to have forfeiture of such rights, privileges and franchises duly declared. Any such company or person, at any time before the final judgment of forfeiture of such rights, privileges and franchises is rendered, may be permitted to make the return and

---

*General Report.*

---

pay the license fee herein provided for, upon special application to the court in which the action to declare such forfeiture is pending, upon such terms as the court shall direct.

SECTION 1795. The railroad commissioner shall, on or before the tenth day of February in each year, ascertain and return to the state treasurer the following:

1. The actual cost of each railroad in the state up to and including the thirty-first day of the next preceding December; and if such railroads shall be partly in and partly out of this state, then the actual cost of so much thereof as is in this state.

2. The total gross receipts resulting from the operation of every such railroad during the next preceding year, ending on the thirty-first day of December, or of that part of the same which is in this state.

3. The total net earnings resulting from the operation of any such railroad during the next preceding year, ending on the thirty-first day of December, or of that part of the same which is in this state.

4. The total interest bearing indebtedness of the corporation owning or operating such railroad, and the amount of interest paid by such corporation during the next preceding year, ending on the thirty-first day of December; and if any part of such indebtedness has been incurred in consequence of the construction, maintenance, repair, renewal or operation of any part of such railroad which is not in this state, or for equipment of such part, such railroad commissioner shall ascertain and determine, in such manner as he shall think just and equitable, how much of its indebtedness is justly chargeable to that part of said railroad that is in this state, and how much interest shall have been paid by such corporation, during such year ending on the thirty-first day of the next preceding December, on that part of such indebtedness which is justly chargeable to that part of said railroad that is in this state. The president or managing officer of every railroad corporation, and every other person operating any railroad in this state, shall annually, in the month of January, make such reports and returns to such commissioner, verified by the oath of such officer or person, as shall afford the information aforesaid, and as he shall require, and at other times prescribed by him, such other reports and returns, verified as aforesaid, concerning such railroads, their business affairs and management, as he shall require; and for such purpose he may prescribe blank forms, which shall be provided by the secretary of state. Every railroad corporation, company or person operating a railroad, who shall fail to make any such report within the time prescribed therefor, shall forfeit one hundred dollars for each and every day the same shall be delayed.

#### TAXATION OF SLEEPING CAR COMPANIES.

SECTION 1220b. (Ch. 353, laws 1883.) No owners, whether corporate or otherwise, of palace cars, drawing room cars or sleeping cars, except railway companies operating railways within this state, shall have a right to use or charge or collect fare or compensation for the use of any such car within this state until such owner shall have procured from the state treasurer a license to use such cars within this state as hereinafter provided.

2. Every such owner of the cars mentioned in section 1, except railway companies as aforesaid, shall, on or before the tenth day of February in each year, make and return to the railroad commissioner a true statement of the gross earnings made by the use of such cars, between points within the state of Wisconsin, during the preceding calendar year; which statement shall be verified by such owner or by some officer or agent having official knowledge of the facts.

3. Every such owner shall on returning the statement provided for by section 2, of this act, apply to the state treasurer for a license to use the said cars upon the railroads operated in this state, and to charge and collect fares or compensation for the use thereof, and shall pay to the state treasurer for such license,

---

*General Report.*

---

the fee provided in the next section, and upon such payment the state treasurer shall issue to such owner a license to use such cars, and charge fare or compensation for such uses as aforesaid.

4. (As amended by ch. 415, laws 1885.) The annual license fee to be paid by such owner, as aforesaid, shall be four (4) per centum of the earnings reported, as required by section 2, hereof; the amount of such license fee to be computed by the railroad commissioner, and by him certified to the state treasurer.

5. The report required by section 2, hereof, shall be in such form and shall embrace such details as shall be prescribed by the railroad commissioner.

6. The said license fee shall be paid one-half at the time such license is applied for, and one-half on or before the tenth day of August, in each year; and if any such owner shall neglect or refuse to make any report required by this act, and to pay for such license, then such owner shall, so long as such neglect or refusal shall continue, have no right to use said cars as aforesaid, in this state, and charge and collect fare or compensation for such use, and any such use by any such owner, in violation of the provisions of this act, may be restrained by injunction at the suit of the attorney-general, in any court of competent jurisdiction.

The operation of this law does not seem to equitably apportion the burden upon the railway corporations and, in some instances, by a technicality, takes from the state a large amount of revenue. An illustration of this is shown in the license fee paid by the Minneapolis, St. Paul & Sault Ste Marie Railway Co. for the years 1895 and 1896 respectively. It will be noticed that for the first year named the fee is but one-fourth that paid in the latter year. There is no such disproportion in the earnings of the company for the two years, and the large falling off in the income to the state is due to the fact that during the period of business depression in one year the gross earnings of the company fell just within the limit of \$3,000 per mile.

It would seem that a license fee based upon the gross earnings of companies would be more nearly fair, if applied alike to all. The small properties are by no means, as a rule, the least profitable, and discrimination between companies such as the law now prescribes is a constant source of temptation to corporation officials to manipulate the returns, and subjects them to unjust suspicions and prejudices, even when the returns are honestly made, if their gross earnings bring them barely within the amount necessary for the reduced rate of license fee.

---

*General Report.*

---

## SLEEPING CAR COMPANIES.

The amount of license or tax paid by sleeping car companies within Wisconsin is, as it has ever been, merely nominal. It is doubtful whether laws can be framed which will fairly tax these companies. The effort has been made in many states, but we find from none of the reports of railway commissioners any evidence that such efforts have been successful.

For the biennial report ending June 30, 1896, the following is a summary of deaths and injuries from railway accidents.

1895.		
	<i>Killed.</i>	<i>Injured.</i>
Passengers .....	4	4
Employees .....	45	181
Trespassers .....	71	60
Not trespassers .....	7	15
	<hr/> 127	<hr/> 260
1896.		
	<i>Killed.</i>	<i>Injured.</i>
Passengers .....	8	18
Employees .....	40	237
Trespassers.....	68	66
Not trespassers.....	13	20
	<hr/> 129	<hr/> 341

A most constant cause of fatal accidents is to be found in badly arranged and poorly superintended grade crossings with highways. No better argument is needed for more stringent regulations to govern this matter than the insistence of the railway companies themselves that the best safety appliances shall be used whenever, and wherever new crossings are made over the right-of-way of railway companies and the expense of the same is put upon the parties or corporations in need of such crossings.

With the multiplying of street railways utilizing electric power, the danger from these crossings is much increased, and

---

*General Report.*

---

at present there is no law whatever governing the operation of such street railway lines in the matter of safety appliances.

Overhead obstructions, most frequently in the form of viaducts and highway bridges, are another cause of many accidents to employes of railways which could be removed without much additional expense if there were some provision requiring that no such structure should be built so low as to prevent trains passing upon it and leaving sufficient room for employes to stand erect upon the cars.

#### COMPLAINTS.

There have been few complaints of violation of law made to this office during the past two years and no one of them has required a formal hearing to secure adjustment. Many minor matters which have seemed to constitute grievances in the minds of patrons of railways, but which do not come within the recognition of the statutes, have been brought to the attention of the commissioner and have usually been amicably adjusted through correspondence. As a rule the railway officials have been prompt and anxious to remove the causes of these minor complaints when brought to their attention.

#### INSPECTION OF ROADS.

The railway companies operating lines in Wisconsin have taken advantage of the low prices of labor and material during the hard times to improve their properties, and it is safe to say that the physical condition of their lines within the state was never better than at the present time. All of the principal lines have been carefully inspected by the commissioner or his deputy during the term.

#### COMPILATION OF RAILWAY LAWS.

There has been no compilation of the railway laws of the state since the year 1889. There is a frequent and constant demand

*General Report.*

---

for such laws from within as well as without the state, and I recommend that some provision be made for a new compilation and publication of a sufficient number of copies to meet this demand.

I have to acknowledge appreciation of the promptness and courtesy of the general officials, and especially of the auditors, of the different railway companies, in attention to calls upon their time made by this department in an official way.

Respectfully submitted,

D. J. MCKENZIE,

*Railroad Commissioner.*
